Office Action Summary	Application No. 10/614,639	Applicant(s) ALBANI, SALVATORE	
	Examiner G. R. Ewoldt, Ph.D.	Art Unit 1644	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 June 2009.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

1. Applicant's amendment, remarks, and terminal disclaimer filed 6/03/09 have been entered.
2. Claims 15-20 are under examination.
3. In view of Applicant's terminal disclaimer the previous rejection for obviousness-type double patenting has been withdrawn.
4. Claim 15 is objected to. In step d), "MHCJJ:antigen" should be "MHC:antigen".
5. The following are new grounds for rejection.
6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claim 20 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, specifically, it is unclear what is encompassed by "antibodies or fragments thereof to ligands ...". Applicant is advised that if the intent is to recite antibodies or fragments thereof that specifically bind the ligands of the claims such language would overcome the rejection.

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claims 15-20 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Patent No. 5,595,881 (of record).

The '881 patent teaches a column device comprising a chamber and a solid support further comprising an MHC antigen:

Art Unit: 1644

functional molecule complex (see, for example column 4, lines 39-52, MHC:anti-MHC antibody complex). Note that the columns used for affinity chromatography inherently meet the limitations of Claims 16-18. Further note that Claims 15 and 20 only limit the claims if the artificial antigen presenting cell option is chosen, however, the claims do not require said option be chosen, thus they still read on the MHC antigen:functional molecule complex.

The reference clearly anticipates the claimed invention.

Note that this rejection was previously withdrawn. A review of the claims, however, reveals that said withdrawal was improper. Independent Claim 19 does not require that the claimed column device comprise any more than the device itself and an MHC:functional molecule complex and that the device be "capable" of binding an artificial APC.

10. No claim is allowed.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dr. Gerald Ewoldt whose telephone number is (571) 272-0843. The examiner can normally be reached Monday through Thursday from 7:30 am to 5:30 pm. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ram Shukla, Ph.D. can be reached on (571) 272-0878.

12. **Please Note:** Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197.
